

STOREALL 500

Features:

The sleek design of the Storall 500 makes this the perfect storage solution for high traffic areas in upscale locations. It's seamless look blends perfectly with new build infrastructure.

The SA 500 is roto-moulded for durability and can be safely stored outdoors; they will hold up to any weather condition.

A lightweight, hinged lid for easy accessibility stays open while gaining access to the contents inside.

A moulded handle hole further adds to the ease of use when opening the lid.

Two forklift openings allow for easy transportation and storage.

The Storall 500 is stocked in yellow for high visibility. (Other colours are available upon request)

Selling Points:

The tapered design provides the added benefit of nesting these bins inside of one another, perfect for easy stacking and for minimizing storage space.

This unique nesting feature also helps in lowering the costs associated with shipping!

All this is backed by TECHSTAR'S 1-year manufacturing warranty

Model Number	Cubic Ft.	Load Capacity (lbs)	Outside Dimensions (inches)	Shipping Weight (lbs)
SA 500	5.5	500	30"x 25"x 24"	21 lbs
